NOTE—Contn. Sheet

Lono 10 PWD 922 3/26

Serial No.

Returned, with compliments, to the Secretary to Government, Departments of Medical and Agriculture.

12 2. In January 1921, Srimati K.Subbamma, Head Mistress of the Maharani's High School, came forward with an application to the President of the District Board, offering a contribution of a sum of Rs 5,000 in five instalments, towards the opening of a Dispensary at Devarayasamudram to perpetuate the memory of her husband. The President in his turn forwarded the application with a recommendation to Government who in consultation with the Senior Surgeon, accorded administrative sanction in their No.G.24177-8/Med.124-20-7 dated the 11th June 1921 to the opening of the Dispensary with effect from 1st July 1921 with the direction that the donation of Rs 5,000 made by Mrs Subbamma might be equally divided between the State and the District Funds towards the cost of constructing the building.

13 3. The Executive Engineer, Kolar Division, who was requested to submit detailed plan and estimate for the work, submitted an estimate (as detailed in the margin) for the work. This estimate as scrutinised by this office omitting the lumpsum provision made for a draw-well came

1. Construction of a Dispensary with out-houses including latrine and a well.....	Rs 4,734
2. Construction of a Maternity with wards.....	3,266
	8,000

WD 895—GBP—5000—31-8-23

Serial No.

to Rs 6,700. This was recommended to Government in the P.W.D. for sanction with this office No.B.1359 dated the 26th July 1924. The lumpsum provision for the draw-well was omitted with a view that this item of work may be taken up later on, if found necessary. This fact has been communicated to his office as well in this office memo No.B.1361 dated the 26th July 1924.

But Government returned the estimate duly sanctioned for Rs 7,225 making provision therein for the levy of the usual establishment and tools and plant charges. The sanctioned estimate is made up as under:-

	Rs
(1) Construction of a Dispensary with out-houses and latrine.....	3,800
(2) Construction of a Maternity with ward.....	2,900
(3) Establishment & Tools and plant charges.....	525
	7,225

Government have ordered the levy of the usual establishment and tools and plant charges and so it is not possible to consider the prayer for such charges being waived.

4. The work portion of the estimate after deducting contingencies and establishment and tools and plant charges amounts to Rs 6,335. The accepted tendered rate is 6½ per cent less. So savings to the extent of nearly Rs 400 and odd are anticipated.

WD 895—GBP—5000—31-8-23

Serial No.

17 5. The outlay on the work up to end of January 1926 is Rs 4,732. But the Executive Engineer has reported that the work is almost completed and the building will be ready for occupation shortly. What the actual savings will be, cannot be known until the final bill of the contractor is paid.

18 6. The Executive Engineer has, however, been asked to submit a detailed estimate, for the orders of this office, for the sinking of the draw well. This will be submitted for sanction if the Senior Surgeon who has been addressed in the matter also considers the well to be an immediate necessity.

19 7. As regards the prayer for the compound wall, it may be mentioned that on account of present financial stringency, the work cannot be taken up.

20 Deducting the liberal contribution of the sum of Rs 6,000 promised by the donor, a provision of Rs 1,000 to cover the balance of the estimate has been made in the Budget Estimate for the year 1925-26.

Chief Engineer of Mysore.

WD 895—GBP—5000—31-8-23

Serial No.

21 Reference orders of the Government at para 5 of the note above.

22 If approved, the petitioner Mr. D. Ramachandra will be told that the work is still incomplete and the actual savings will not be known until the final bill of the Contractor is paid, that the question of providing a road to the Dispensary, with the savings, if any, is under investigation by the Public Works Dept, and that it is not possible, on account of financial stringency, to sanction the provision of compound wall to the Dispensary at present.

23 At para 15 of the note the Chief Engineer states that the levy of the temporary establishment and tools and plant charges having been sanctioned, it is not possible now to reconsider the question

NOTE—Contn. Sheet

~~Director of Agriculture~~ is asked. This seems to be a case in which Govt may well waive the tools & plants charges. I understand that such a concession has been given in several cases e.g. Mr. H.S. ~~Sapkal~~ Dyer's Leprosy Ward in the Maternity Hospital, Mr. Gangadhar's D.T. Dispensary at Belgaum. If this is approved, there probably will enough money for a well & a compound wall

quite finished. The exact saving on the estimate is not ascertainable. But taking Mrs. Subbamma's donation of Rs.6,000 and the contribution of Rs.2,000 payable by Government and District Board, there will be a saving of more than Rs.500 on the estimate. This is a work eminently deserving of the concession of establishment and tools and plants charges, ~~waiving of~~ being waived. If this claim is waived it will release a sum of nearly Rs.500 from the estimate. Between these two items we can safely count upon a sum of Rs.1,000. Mr Rama Iyer considers that the well and the compound wall together may not cost more than Rs.1,400. The difference still to be made up is only about Rs.400 and in his petitions Mr. Rama Iyer, the executor of the will of Mrs. Subbamma offers to pay this excess if necessary, ~~if necessary~~ and also states that there may be some interest due on the bonds given by Mrs. Subbamma towards her endowment which could be used for this purpose.

On the whole there is no difficulty in complying with his requests for sinking a well and erecting a compound wall from the resources indicated by him, if only the claim to establishment and tools and plants charges is waived. The exact amount required for the two works and the savings actually available on the estimate are not now known, but from the circumstances of the case there is no objection to assure Mr. Rama Iyer that both these works will be carried out from the resources indicated by him. If there is still any small difference left, it may be paid by Govt.

Bangalore
— u —

Sir,

In enclosing herewith my application to the Chief Engineer re- the Construction of the Dispensary and the ward in the village of Jodi Devarayasamudram, Mulbagal Taluk, Kolar District, I beg leave to state that the necessity for the well within the dispensary premises is an urgent need and that the want for water will be felt very much when the dispensary is removed there.

2 At the instance of the late Sir K. Balasundara and on the promise of paying a sum of Rs 1000 in addition to his previous contribution of Rs 5000/-, a separate ward has been added and both the buildings are nearing completion.

3 The sum of Rs 5000 was paid partly in Cash and partly in the forms of loan bonds, whereon interest has been earned since the date of payment.

4 The sum sanctioned by the first Government order was Rs 7000/- for the Construction of the Dispensary; This sum had to

be met, according to the express orders of Government, from Rs 5000 Contributed by the late Srie K. Subbaraya and Rs 1000 from Government and Rs 1000 from the District Board.

5. The money that is now spent on these two buildings is for less than Rs 8000 and the well which was provided for in the first plan and estimate has now been omitted; but the President of the District Board has sent me a requisition to pay Rs 1000/ promised in writing by the late Srie K. Subbaraya.

6. In the circumstances, I make the following request to Government:—

(i) The Government may be pleased to sanction the sinking of the well within the Dispensary premises at Devarayasamudram;

(ii) The President of the District Board may be directed to adjust the interest that has accrued on loan bonds towards the Surplus amount, if any, spent over Rs 7000/-

(iii) If the amount spent is less than Rs 7000/-, the District Board may be directed (a) either to reserve the interest as part-payment of the promised further Contribution of Rs 1000/- in case the Government sanctions the well, in which case I shall pay the balance on my obtaining the Probate, or (b) to refund the interest accrued if the well is not sanctioned and if the amount already ~~spent~~ spent is less than Rs 7000

Praying for early orders,

Mysore 22-1-26

To

The Chief Engineer in Mysore

Bangalore

Sir,

In my capacity as the Executor of the Will of the late Smt. K. Subbamma, Ex-Headmistress of the Maha Ranis Hyth School Mysore, I beg to bring the following facts to your kind Consideration and Sympathetic and early disposal:-

(i) In the months of March 1921 or thereabouts, the Govern of His Highness the Maha Raja was pleased to sanction the openin of a Dispensary in the Village of Dwarayaswamidrau, Mulbagal Taluk, Kolar District; This was at the instance of the late Smt. K. Subbamma and on her contribution of Rs 5000/- which was paid partly in Cash and partly in the form of bank bonds;

(ii) The order of Government was to the effect that the building should be constructed at a cost of Rs 7000/- made up of Rs 5000 contributed by the donor and Rs 2000

(iii) In accordance therewith, the Government sanctioned the Construction of the Dispensary Building, providing in the Plan and Estimate for a well; later on, since a friend of late Sir K. Subbarama wanted to associate her name with this Charitable Institution, the deceased lady requested the President of the District Board and the then Executive Engineer Mr. Anandalwar to provide for a Ward on her undertaking to pay a further Sum of Rs 1000;

(iv) Accordingly, the Construction of the Dispensary Building and the Ward were taken up and They are nearing completion;

(v) The amount spent by Government is, I learn, far less than Rs 8000/- and the well has been omitted in the revised plan and Estimate; but the District Board has sent me a Notice of Demand for the payment of Rs 1000 promised by the late Sir K. Subbarama;

In the circumstances, I beg leave to make the following request:—

(a) The Government may be pleased to sanction the Construction of the well without which the Dispensary, Constructed as it is on a high ground far off from water facilities, suffers a good deal;

(b) If it be not possible to Construct the well now, I may be permitted to pay the Surplus Cost over and above Rs 7000/-

(c) As I am more particular to see that the Dispensary is provided with the well, my alternative prayer (b) may be considered, only if the Government cannot take up the Construction of the well now.

Lastly, I pray that you may be pleased to grant my request immediately and issue necessary orders to the Executive Engineer, Kolar District, to begin the work of Constructing the well as this is the most opportune time to sink the well; my Share of Contribution will be paid on my obtaining the Probate.

I further beg to State that the President of the District Board may be requested to adjust the interest accrued on Loan-bond towards the promised Contribution.

22-1-26

I beg to remain, Sir,
Your most obedient Servant,
D Rama Rao

Med 28-25-5

To

Sir A. R. Banerji Esqr. Kt. C.S.I. C.I.E

Dewan of Mysore

Bangalore

Urgent

Sir,

May it please you, Sir!

That I, D. Rama Aiyar, Executor of the Will of late Smt. K. Subbamma, beg permission to bring the following facts for your kind Consideration and pray that you may be kind enough to grant my request at an early date.

(i) That, at the instance of the late Smt. K. Subbamma and on her Contribution of Rs 5000/-, the Government was kind enough to pass orders in the month of May or June 1921 or thereabouts sanctioning the opening of the Dispensary at Devarayasamudram in the Kolar district;

(ii) That the said order of Government directed that the amount donated by the donor and a further sum of Rs 2000 to be Contributed in equal proportions by the Dt. Board and the Government should be spent on the Construction of the Dispensary Building;

(iii) That, in accordance with the Government order, the Executive Engineer, Kolar Division, submitted the plan and Estimate wherein some provision for the Well had been made and sent to the donor for Counter-Signature;

(iv) That the late Smt. K. Subbamma made a further promise of Rs 1000 and requested the authorities concerned to add a ward; Thanks to the Government and the officers of the Engineering Department that the Dispensary building proper and the Ward have been constructed at a cost not exceeding Rs 7200 & odd; Thus there is a savings of Rs 800 or very near that if the Govt & District board quota of Rs 2000 is paid in full.

(v) That this sum of Rs 7200 & odd includes, as I learn, the Supervision charges amounting to Rs 600 & odd and the Govt. have up to now paid only Rs 600 & odd; So, the Govt. quota covers up the Supervision charges.

(vi)

(vi) That, with respect to the well, I learn that the provision made on that account has been scored out by Govt. depriving sanction in case of necessity; That the President of the Dt. Board feels that there is a necessity for the well and I believe the Senior Surgeon also does so

(~~vii~~)

(vii) That the Dispensary, situated as it is in a place where there is too much traffic and passing of the public, needs to be enclosed;

(viii) That the donor is now dead and my powers as the Executor are restricted to finance these works - the well and the Enclosure.

In these circumstances, I appeal to you, Sir, to pass orders directing the payment of Rs 2000 in full - Rs 1000 by the Govt & Rs 1000 by the Dt. Board - as expressed in the Govt. order of 1921, to waive the question of supervision charges and to utilize the savings that could thereby be effected for the sinking of a well and the putting up of an enclosure for the Parameswara Dispensary building at Devarayasamudram in the Kolar District.

Devarayasamudram
Kolar District

No. C.2136-7 Office of the Senior Surgeon in Mysore,
End. One Bangalore, dated 9th March 1926.

From

Dr. B. Mahomed Usmon L.M.S.,
Senior Surgeon with the Government of
His Highness the Maharaja of Mysore,
Bangalore,

To

The Secretary to Government,
Medical & Agricultural Departments,
Bangalore,

med 28-25-8

With reference to Government Order No. G.24177-81 Med.124-20-7, dated 11-6-21, sanctioning the opening a Dispensary at Devaroyasamudram, I have the honour to forward the enclosed copy of letter dated 18-2-26, received from Mr. D. Rama Aiyar, First Grade Pleader and the executor of the will of late Sri. K. Subbamma regarding the construction of compound wall to the dispensary and providing it with a well from the savings pointed out by him and to state that, if, savings to the extent of Rs 1,400/- could be made available in the manner indicated, the same could be spent in no better way than in constructing a compound wall and sinking a well in the compound of the Dispensary.

I have the honour to be,
Sir,
Your most obedient servant,

B Mahomed

SENIOR SURGEON.

Letter dated 18-2-26, from D. Rama Aiyar Esq., First Grade Pleader, and the Executor of the will of late Sri. K. Subbamma (Camp) Devarayasamudram, Kolar District, to the Senior Surgeon in Mysore, Bangalore.

In thanking you and our benign Government for the paternal care bestowed upon the Parameswara Dispensary at Devarayasamudram in the Kolar District, I beg to state that the construction of the Dispensary building and of the ward is completed and that the Assistant Engineer Kolar Division, told me that the building would be handed over to the Department before the end of the month.

I further beg to mention that the absence of the well within the premises and that of the compound wall are likely to lessen the usefulness of the dispensary--nay they may even cause inconvenience; and therefore I humbly request you to kindly recommend to the Chief Engineer and the Government to sanction the sinking up of a well and the putting up of a compound wall. In this connection, I beg to invite your kind attention to the original Government Order passed in 1921 when the Dispensary was sanctioned and the estimate submitted by the Executive Engineer, Kolar Division, and the sanctioned estimate in accordance with which the work was carried out; this I do, with your permission, how these requisites may be financed <u>if the Government is only pleased to consider my application favourably.</u>

(i) <u>Regarding the Well</u>:- (a) When the Government was pleased to grant the request of late Sri K. Subbamma to open the Dispensary in memory of her husband, the Government Order contained that the Dispensary building was to be constructed at a cost of Rs7,000/- to be made up of Rs5,000/- contributed by the donor and Rs2,000/- to be paid in equal proportions by the District Board and the Government.

(ii) In the first proposed estimate, the well was provided for; but the Government deferred the question of the well for which a separate sanction could be had if necessary;

(iii) On Sri K. Subbamma's promise of a further contribution of Rs 1,000/- the Government was kind enough to sanction the construction of the ward as well;

(iv) Thanks to the Chief Engineer, the Executive Engineer and the Assistant Engineers that the cost of both the buildings has not gone up beyond Rs 7,200 and odd and thus there is a savings of Rs 800 or very near that;

(v) I have requested the Government and the President of the Kolar District Board to kindly sanction the well.

2. I further beg to invite your kind attention that the Supervision charges may go up to Rs 600/- and odd and this is included, I believe, in the sanctioned estimate of Rs 7,200/- and odd; if the Government is kind enough to waive the question of supervision charges, a further sum of Rs 600/- and odd will be available; hence a total sum of Rs 1,400/- or so may be used for the well and the compound wall. It is needless for me to mention that the Government will always be pleased to concede the supervision charges in the case of charitable institutions like the Dispensaries and Hospitals when the subjects of His Highness the Maharaja receive equal treatment without difference of caste, creed or colour.

4. In these circumstances, I humbly pray that you will be pleased to recommend to Government and the Chief Engineer to waive the question of supervision charges, to kindly recommend to the Government and the Kolar District Board to spend their quota for the use of the Dispensary and thus render this institution more useful and convenient to the sufferers who seek relief there.

Since the matter is pending disposal before the Government, I request you with all humbleness that the matter may kindly be treated as urgent and necessary recommendations may be sent to Government, to the Chief Engineer and the President of the District Board, Kolar, to sanction the well and the compound-wall.

" C O P Y "

J Mannow

~~SENIOR SURGEON.~~

ab

Proceedings of the Govt. of H.H. the Maharaja of Mysore.

Read:

G.O.No.G.24177-81/Medl.124-20-7 dated the 11th June 1921 sanctioning the opening of a Local Fund Dispensary at Devarayasamudram in the Mulbagal Taluk and directing that the donation of Rs.5000 of Mrs.K.Subbamma be equally divided between the State and the District Board Funds towards their cost of constructing the dispensary building at the place.

2. Application dated 22nd Jany.1926 from Mr.D.Rama Aiyer, Executor of the Will of the late Mrs.K.Subbamma requesting that the Government and District Fund contribution towards the cost of the construction of the work may be paid in full, that the interest accrued on the loan bonds of Mrs.K.Subbamma, deposited with Deputy Commissioner, Kolar District, may be added on to her donation which was subsequently raised to Rs.6000, that the establishment, tool and plant charges levied on the work may be waived by the Public Works Department and that with the savings that would be effected after completing the sanctioned works, orders may be issued for sinking of a well and for providing a compound wall to the

the dispensary in question and stating that the difficiency, if any, for the completion of these new works would, if necessary be paid by him.

3. Further correspondence ending with Un-official note No.10/P.W.D. dated the 22nd March 1926 of the Chief Engineer of Mysore furnishing his opinion on the representation of Mr.Rama Aiyer.

Order No. G 7868-73

Dated Bangalore 29th March 1926.

Mr.Rama Aiyer the executor of the will of Mrs.Subbamma requests that the levy of the usual establishment, tool and plant charges in connection with these works may be waived and with the savings that are likely to be ~~effected~~ thus effected and with the balance of money that is likely to be left over after ~~completion~~ the work is completed, a well might be sunk near the dispensary and the dispensary building and the grounds enclosed by a compound wall. Government are pleased, as a special case, to waive the levy of establishment, tool and plant charges as ~~requested~~ requested above.

As regards the other sanvings referred to by Mr.Rama Aiyer it is not possible just at present to make an estimate of the savings, as the building is reported to be nearing completion and all the bills not yet paid.

It is understood, however, that there is likely to be ~~some~~ a substantial savings which together with the amount levied towards establishment, tool and plant charges ~~are~~ is likely to meet the cost of the well and the compound wall the construction of which has been prayed for by Mr.Rama Aiyer.

Government are pleased to order that these works be undertaken and completed at once.

From the records it is not clear ~~that~~ whether the contribution of Rs.1000 promised by the District Board has been paid. If not steps will be taken to ~~raise~~ get this amount and utilise it for the works.
